About Mr. Abhishek B. Gharpankar

Mr. Abhishek B. Gharpankar is a lecturer in the Department of Artificial Intelligence and Machine Learning at New Institute of Technology, Kolhapur. He has completed his B.Tech. in Computer Science and Engineering (CSE) and is currently pursuing his M.Tech. in Computer Science and Engineering.

He has one year of teaching experience and has taught programming concepts during this period. His areas of interest include Artificial Intelligence, Machine Learning, and Deep Learning. As part of his M.Tech. work, he is working on a Deep Learning-based Wildlife Detection project. He is also involved in writing review papers and research papers related to deep learning and wildlife detection. He is interested in teaching and learning the latest technologies in AI, ML, and DL.
